

Palm News

South Broward Montessori Charter School
October 2021

Fall is here!!!

Time flies when we are having so much fun learning. Students have settled nicely into their new classroom. They have also adjusted to their new classroom routines and procedures. With each new day, we continue to learn new things as we explore new content in the classroom.

Our Lessons

Reading: 4th and 5th grade students will learn about character development and traits through different types of stories, plays, reader's theaters, and fictional fairy tales. In addition, student will learn about compound words, prefixes, suffixes, preposition, use of period, use of comma, use of exclamation point, and use of question mark.

Writing: 4th and 5th grade students will work on brainstorming and writing opinion essays.

Math: Students in 4th grade will learn multiples, factors, divisions, quadrilaterals(Geometry), shape patterns, and multi- step word problems. Students in 5th grade will learn addition, subtraction, multiplication, and division with decimals, and addition and subtraction with fractions.

Science: Students in grades 4 and 5 will learn about Atoms, Star Formation, Galaxies, Space, Solar System, and Constellations.

Social Studies: Students will learn about Politics, Physical Maps, US Territories, and Florida's Physical Features .
